1	I won't say the building isn't safe or healthy, but that does not mean it shouldn't be replaced. It is time to address the age of the elementary and middle/jr hi and assess the financial outlook of replacing versus continuing to throw good money after bad. Archuleta county is facing two large projects to bring our facilities up to par and usher our school district into the modern age. This is a monumental task, now is the time.	12/2/2024 8:01 PM
2	While the facility is underperforming, the staff and education at the school is a safe & healthy environment.	12/2/2024 7:33 PM
3	The space is healthy and safe but could be much better.	11/17/2024 7:53 AM
4	Learning of the plumbing, roof and electrical issues are very concerning; not to mention the lead drinking pipes	11/15/2024 12:23 PM
5	The school has been rated "F". Lacks windows in most classrooms. Some classrooms do not have a/c or heat. Lacks adequate space for indoor recess, grade-level presentations or school-wide gatherings. Frequent leaks in the ceiling in halls and classrooms. There must be other reasons this building was rated "F" that are not apparent to the untrained eye.	10/30/2024 2:13 PM
6	I expect windows in all learning areas	10/29/2024 9:06 PM
7	It's a very old building. Structural cracks are visible in gym . Several staff comment on how when entering the building they get runny nose, sneezing, coughing and often times head achy. But don't have these symptoms at home.	10/29/2024 10:21 AM

9	The building was built in 1968. There is known asbestos and lead. There are inherent problems with a building this old. At some point the sunk cost analysis of trying to keep this building standing as opposed to building a new, safe building must be faced.	10/29/2024 8:49 AM
10	There isn't a secure school yard. Anyone can walk in and out of the playground/field areas.	10/29/2024 8:41 AM
11	Too close to 160 for the kids and the traffic getting in and out of the school	10/29/2024 7:58 AM
12	Too close to the highway. Student drop off is extremely dangerous.	10/29/2024 7:51 AM
13	Drop off and pick up are a free for all, no ID checks.	10/28/2024 6:34 PM
14	The location off of hwy 160 is unsafe as well as the location of the office.	10/28/2024 10:12 AM

1	The roof is unacceptable for a good educational learning atmosphere. I believe security issues and the location of the office were addressed a few years ago. I am unfamiliar with classroom spaces	12/2/2024 8:37 PM
2	It seems to me that there are aspects of the building/rooms that might be used better. For example, equipment storage. Do/should we be using the hall between the gym and the locker rooms for storage? How about the emergency exit foyer at the west end of that hall?
