Project Summary: The Ignacio Middle School was the first phase of a comprehensive district-wide masterplan completed by RTA in 2011. The middle school opened in 2013, and includes flexible educational and social spaces, state-of-the-art athletic fields, and an area for the district agricultural program. A centrally located outdoor learning space can accommodate small groups or entire classes. The tall, open commons and library space utilizes exposed wood structure, beetle-kill pine finishes, and glass overhead doors to open the space to an outdoor student plaza for community events.
